

MEMORANDUM

TO: Jessika Thomas
FROM: Dean John W. Fisher, II
DATE: August 22, 2008
SUBJECT: Law School Placement Statistics

As we discussed, the employment statistics for the College of Law are set forth below. The time for placement statistics calculations set by the National Association of Law Placement is nine months after graduation.

	Graduates	Employed	Percentage Employed
The class that graduated May 2006	137	128	93.4%
The class that graduated May 2005	139	126	92.6%
The class that graduate May 2004	149	114	77.6%*

*This is the year that NALP added a new response as to employment statistics that we believe caused confusion with the respondents.
