\*\*\*\*\*

Medium: BK      Shelf No: BK-0141

Topic: Science, technology, animal

Title: Mapping Animal Movements

Format: book

Length: 45pp      Year: 1987

Description:

This Teacher's guide will enable you to introduce your students to field biology techniques by using a sampling and mapping system to quantify and compare the movements of hamsters and crickets in the classroom. Published by LHS Gems. Audience type: teachers, youth grades 5-9.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK      Shelf No: BK-0142

Topic: science, technology, animal

Title: Animals in Action

Format: book

Length: 51pp      Year: 1986

Description:

This Teachers/leader's guide is an introduction to observing and experimenting and it can assist your students in planning and conducting their own science fair research projects. Published by LHS GEMS. Audience type: teachers, youth grades 6-9.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK      Shelf No: BK-0143

Topic: science, technology,

Title: Fingerprinting

Format: book

Length: 54pp      Year: 1987

Description:

The activities in this unit allow you and your students to explore the similarities and variations of fingerprints. Your students become criminalists as they use the standard fingerprint classification scheme to solve a crime. Published by LHS GEMS. Audience type: teachers, youth grades 4-8.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK      Shelf No: BK-0144

Topic: Science, Technology, Inventions

Title: Inventors Workshop

Format: book

Length: 84pp      Year: 1981

Description:

Features more than twenty-five challenging projects and activities appropriate for kids in elementary and junior high school. The book is designed for use by teachers in the classroom or by parents who would like to work with their children on enjoyable, inventive science projects at home. Published

by: Fearon Teacher Aids. Audience type: teachers, grades 3-8, parents.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK            Shelf No: BK-0145

Topic: science, technology, sound,

Title: Sound Science

Format: book

Length: 96pp            Year: 1991

Description:

Book includes over forty ear-opening experiments. Each project has simple directions using ordinary objects, a complete explanation of the science behind the sounds, and suggestions for further experiments. Published by Addison-Wesley Publishing Company. Audience type: youth grades 2-6.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK            Shelf No: BK-0146

Topic: Science, technology, health, food

Title: Foodworks

Format: book

Length: 93pp            Year: 1987

Description:

The projects in this book are explained in clear, step-by-step instructions and evocative illustrations, and they require only a few common household items to complete. Throughout there is an emphasis on health, and kids and adults alike will take a different look at what they eat and why, what's good for them and what's not. Published by Addison-Wesley Company. Audience type: youth grades 2-7.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK            Shelf No: BK-0147

Topic: science, technology, Bill Nye, electricity, weather, gravity

Title: Bill Nye - The Science Guy's Big Blast of Science

Format: book

Length: 172pp            Year: 1993

Description:

Entertaining presentation and projects on topics such as heat, light, electricity, magnetism, weather, outer space, gravity and more. Published by Addison-Wesley Company. Audience type: youth grades 4-8 and adults.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK            Shelf No: BK-0148

Title: Sportworks

Format: book

Length: 96pp      Year: 1988

Description:

Book offers a blend of physics, physiology, experiments, games, activities and sports trivia. Published by: Addison-Wesley Publishing Company.

Audience type: ages 7-13

J. Meredith 12/95

\*\*\*\*\*

Medium: BK      Shelf No: BK-0149

Topic: Aerospace, model rocketry, science, technology

Title: Height-o-Meters

Format: book

Length: 53pp      Year: 1988

Description:

Teachers/leaders guide for leading a unit of four hands-on-sessions in the construction & use of "height-o-meters", used to estimate the height of model rockets. Students will be able to learn how to measure angles and distances using the metric system, and learn the fundamental concept of triangulation. Published by LHS GEMS. Audience type: youth grades 6-10.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK      Shelf No: BK-0154

Topic: Environment, Conservation, water, wildlife, decision making

Title: Wetlands: Critical Issues/Critical Thinking Experiences For

Format: book/poster

Length: 28pp      Year: 1995

Description:

Provides challenging activities to help participants enhance their critical thinking skills while gaining knowledge about wetland issues. Published by National 4-H Council. Audience type: age 12 - 14, youth leaders.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK      Shelf No: BK-0153

Topic: Science, Technology,

Title: Mystery Festival

Format: book

Length: 258pp      Year: 1994

Description:

Book combines mystery and investigation in a highly exciting, engaging and educational experience. Students/detectives will conduct many

hands-on forensic science tests on evidence found at a "crime scene." Published  
by: LHS GEMS. Audience type: grades 1-8  
J. Meredith 12/95

\*\*\*\*\*

Medium: BK Shelf No: BK-0152

Topic: science, technology,

Title: Crime Lab Chemistry

Format: Book

Length: 28pp Year: 1985

Description:

With this activity, you have the opportunity to draw upon students' interest in and enthusiasm for solving mysteries to convey some important scientific concepts, methods, and techniques. Published by LHS GEMS.  
Audience type: grades 4-8

J. Meredith 12/95

\*\*\*\*\*

Medium: BK Shelf No: BK-0151

Topic: Aerospace, science, technology, model rockets

Title: Experimenting with Model Rockets

Format: book

Length: 93pp Year: 1989

Description:

The activities in this guide build on your students motivation to experiment with model rockets to introduce the concept of "controlled experimentation." The essential lesson here is that in order for an experiment to provide useful information, the experiment trials must be the same, except for one important difference, the one they wish to study. Published by LSH GEMS.

Audience type: grades 6-10

J. Meredith, 12/95

\*\*\*\*\*

Medium: BK Shelf No: BK-0150

Topic: Nature, science, technology, earthworms

Title: Earthworms

Format: book

Length: 47pp Year: 1989

Description:

The activities in this guide provide an enjoyable opportunity for your students to learn about the responses of earthworms to temperature.  
Published by: LHS GEMS. Audience type: grades 6-10

J. Meredith 12/95

\*\*\*\*\*

Medium: BK            Shelf No: BK-0155

Topic: Science, Technology,

Title: Bubble Festival

Format: book

Length: 176pp        Year: 1992

Description:

Teachers/leaders guide for setting up a "festival" of learning stations on the science of bubbles. Published by LHS GEMS. Audience type: youth grades K-6.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK            Shelf No: BK-0156

Topic: science, technology, astronomy

Title: Earth, Moon, and Stars

Format: book

Length: 81pp        Year: 1986

Description:

This book will help guide your students in using the sky to: 1) answer some questions about the Earth, Moon & stars, 2) improve thinking skills such as observing, measuring, recording, map reading and using models to explain observations, 3) gain a deeper understanding and appreciation of the earth, moon, stars and gravity. Published by LHS GEMS. Audience type: youth grades 5-9.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK            Shelf No: BK-0157

Topic: Science, technology, aerospace

Title: Flights of Imagination

Format: book

Length: 55pp        Year: 1990

Description:

Includes 18 projects that help students answer questions for themselves. Each activity presents a clearly described principle of aerodynamics, and then puts it into action with trash bags, string, dowels, tape and other readily available materials. Published by National Science Teachers Association. Audience type: grades 5-12.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK            Shelf No: BK-0158

Topic: science, technology, experiments

Title: Bubble-ology

Format: book

Length: 68pp        Year: 1986

Description:

Students will have an opportunity to develop a variety of skills useful for continued study in science and for daily life. These skills include: making observations, measuring & recording data, experimenting, calculating averages, graphing results, making inferences and drawing conclusions.

Published by: LHS GEMS. Audience type: grades 5-9.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK            Shelf No: BK-0159

Topic: Science, technology, mathematics,

Title: Scientist Within You

Format: book

Length: 182pp        Year: 1994

Description:

This book highlights women's achievements in science and mathematics from the first century AD to the present. Their noteworthy accomplishments are "translated" to students through hands-on experiments and activities. It is intended to inspire not only girls but every young person's interest in science and mathematics. Published by: ACI Publishing. Audience type: ages 8-13.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK            Shelf No: BK-0160

Topic: Weather, science, technology, meteorology

Title: Project Earth Science: Meteorology

Format: book

Length: 233pp        Year: 1994

Description:

Book has nineteen hands-on activities, ten readings, and a thorough resource guide. Students can make clouds and hail and build weather maps. Teaches the causes of smog, ozone depletion and acid rain. Published by National Science Teachers Association. Audience type: grades 5-10.

J. Meredith 12/95

\*\*\*\*\*

Medium: BK            Shelf No: BK-0161

Topic: light, science, technology, color

Title: Color Analyzers

Format: book

Length: 65pp        Year: 1989

Description:

Teachers/leaders guide for leading a unit of four hands-on sessions on light and color. Uses a mystery theme and includes a set of color filters

and diffraction gratings. Produced GEMS. Audience type: youth grades 5-9.

J. Meredith

Topic: child care, development, day care,

Title: Creative Curriculum for Family Child Care

Format: books

Length: 379pp        Year: 1991

Description:

Offers a practical and concrete plan for guiding children's learning and development in a home environment. It illustrates how children grow and learn at each stage of development. Also includes a Trainer's Guide to assist trainers and family child care coordinators who wish to use the curriculum as the focus for both workshops and on-site training. Published by Teaching Strategies, Inc. Audience type: Family child care providers, trainers

J. Meredith 12/95

\*\*\*\*\*

Medium: KIT            Shelf No: K-0117

Topic: Aerospace, hands-on activities, science, technology

Title: Toys In Space

Format: kit

Length:                Year: 1994

Description:

Kit contains everything needed to teach science with the toys the astronauts took into space on shuttle missions. Contains a guidebook, a video of actual "toys in space" experiments from a shuttle mission, and a set of toys to re-create the experiments. Produced by NASA. Audience type: youth grades 4-8.
